Location: Namakkal, Tamil Nadu

SUMMARY

Passionate Full-Stack Python Developer focused on building scalable, secure, and user-centric web applications. Experienced with Django and Flask backends, modern front-end technologies, and relational & NoSQL databases. Strong problem solver and collaborative team player who writes clean, maintainable code.

EDUCATION

B.A. English — Alagappa University, Karaikudi (Nov 2021 – May 2024)

Nanodegree — Full Stack Python — Imagecon, Salem (Dec 2024 – Jul 2025)

TECHNICAL SKILLS

- HTML, CSS, JavaScript, Bootstrap, React, Tailwind
- Python, Django, Flask, REST APIs
- SQL, MongoDB
- Git, GitHub

PROJECTS

Anime Streaming Website (Front-End)

Developed a responsive and visually appealing anime website using HTML, CSS, JavaScript, and Bootstrap. Implemented interactive UI elements for an engaging user experience.

Student Management System – Python, Tkinter, MySQL

Created a user-friendly desktop app with a secure login system using Python and Tkinter. Enabled efficient student record handling, attendance tracking, and database management.

Inventory & Billing Management System – Full Stack Application

Built a complete inventory and billing system using Django, Python, HTML, CSS, JavaScript, Bootstrap, and MySQL. Implemented admin/staff login, stock tracking, billing, dashboards, and export features (PDF/CSV).

Real-Time Chat Application – Flask, Flask-SocketIO

Developed a real-time chat app with Flask and SocketIO, supporting instant messaging, emoji reactions, and file sharing.

Personal Portfolio – React, Tailwind, HTML, CSS, JavaScript

Designed and developed a responsive personal portfolio showcasing skills, projects, and achievements with modern UI components.

STRENGTHS

Problem solving & critical thinking

Multitasking & teamwork

Strong communication & collaboration
